

The registration process involves providing standard details such as name, email, and contact information. Once registered, your credentials, including your username and password, will be sent to your email. The account interface includes a side panel that lists all registered accounts, allowing for easy activation or deactivation of accounts as needed.

Interface title

The diagram illustrates the registration interface. It features a table on the left titled 'List of accounts' with columns: Status, ID, LOA, Name, Birthdate, Contact No, and Address. The table contains three rows of data. To the right of the table is a form titled 'Registration' with fields for First Name, Last Name, Birthdate (a date picker), Contact Number, Home Address, and Email Address. Below these fields are radio buttons for 'Level of Access' (Admin and Employee/Staff). At the bottom are four buttons: 'Activate', 'Void', 'Register', and 'Cancel'. Arrows point from labels to these buttons: 'Activate accounts for use' to 'Activate', 'Disable accounts from being used' to 'Void', 'Confirm Registration' to 'Register', and 'Return to previous interface' to 'Cancel'. An arrow also points from the text 'Input user details for registration' to the form fields, and another from 'Determine Level of Access' to the radio buttons.

Status	ID	LOA	Name	Birthdate	Contact No	Address
Active	2024A01	admin	Thady F Tan	6/28/24	09123456789	48 Scout Ybardolaza
Inactive	2024A02	admin	Chey B Gali	6/28/24	09655431219	address

Cancel

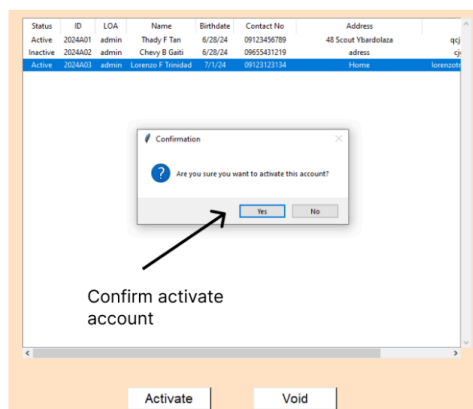

Activate accounts for use

Disable accounts from being used

Confirm Registration

Return to previous interface

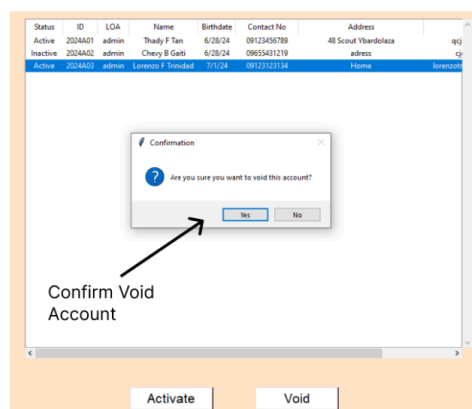

Activate

The diagram shows the 'Activate' process. A 'Confirmation' dialog box is displayed with the question 'Are you sure you want to activate this account?'. The 'Yes' button is highlighted. Below the dialog are 'Activate' and 'Void' buttons. An arrow points from the text 'Confirm activate account' to the 'Yes' button.

Confirm activate account

Void

The diagram shows the 'Void' process. A 'Confirmation' dialog box is displayed with the question 'Are you sure you want to void this account?'. The 'Yes' button is highlighted. Below the dialog are 'Activate' and 'Void' buttons. An arrow points from the text 'Confirm Void Account' to the 'Yes' button.
